CHIEF COMPLAINTS AND HPI

AI SYNTHESIZED TRIAGE

Patient presents with a 6-month history of bilateral knee joint pain, aggravated by cold weather and prolonged walking. Reports morning stiffness lasting ~25 minutes. No history of direct joint trauma or fever.

AYURVEDIC ASSESSMENT

Vataja Prakriti (Vata Dominant)

AYU-PRA-01

Doshic Distribution (CCRAS Scale): Vata 100% · Pitta 0% · Kapha 0% | Vikriti Indication: Sandhigata Vata / Shoola (NAMC: MG-1)

✓ **Pathya (Diet & Lifestyle Advisory):** Warm, freshly cooked, nourishing meals with adequate cow's ghee and sesame oil. Favor sweet, sour, and salty tastes. Warm milk with a pinch of nutmeg or ginger, hearty vegetable stews, cooked whole grains (rice, wheat). Maintain a regular daily routine (Dinacharya) with consistent sleep times. Practice daily gentle warm oil massage (Abhyanga). Stay warm and avoid drafty, cold air.

✗ **Apathya (Items to Restrict):** Avoid dry crackers, raw cold salads, iced beverages, irregular meal timings, fasting, staying awake late at night (Ratri Jagarana), and excessive multi-tasking.

CCRAS Standardized Prakriti Determination • Advisory note for attending physician. Not a definitive prescription.
